Tradeable unit/ nominal value	EUR 1,000
Listing	Vienna, Stuttgart
Product currency	EUR
Underlying currency	EUR
Taxation	Capital Gains Tax

Last update: May 17, 2024, 7:59 pm

The Certificate

The Guarantee Certificate Austrian Stocks Bond provides investors with the opportunity to obtain an annual interest rate of 4%. The interest amount is paid out, if all underlying shares (Erste Group Bank AG, OMV AG, voestalpine AG) quote above their respective starting value (=closing price at the initial valuation date) at the current annual valuation date. The certificate will be redeemed at 100% of the nominal value at the end of the term (June 2024).

Information on the term

Please note:

- 100% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level.
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Notes:

You are about to purchase a product that is not easy and difficult to understand. For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [raiffeisenzertifikate.at/en/securitiesprospectus](https://www.raiffeisenzertifikate.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at <https://www.raiffeisenzertifikate.at/en/customer-information>. The approval of the base prospectus by the competent authorities is not to be understood as an endorsement of the product by these authorities.

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

CENTROBANK**

ATTRACTIVE INTEREST OPPORTUNITY, CAPITAL PROTECTION

In short:

Raiffeisen Centrobank's Guarantee Certificate Austrian Stocks Bond provides investors with the annual opportunity to obtain an interest rate of 4%. If the interest rate is paid out depends on the performance of the three underlying shares. In case of a negative performance the capital protection of 100% applies at the end of the term (June 2024).

The turbulent stock market debut 2016 is well-remembered by many investors. Falling stock prices prompted caution. Since then, the situation has eased and many investors dare to step out of their defensive position. The blue chips of the ATX have regained their position as the favorites of Austrian investors.

Investors, who expect the Austrian blue chips **Erste Group Bank AG**, **OMV AG** and **voestalpine AG** to perform stably may realize their market opinion with the **Austrian Stocks Bond** Guarantee Certificate. The certificate with full capital protection at the end of the term is suited to security-oriented investors, who want to capitalize on a sideways moving or slightly rising Austrian market. Taking the issue surcharge of 3% during the subscription period into account, the maximum return comes up to 3.56% p.a. Further details regarding opportunities and risks are presented on the following page. The certificate's term is eight years.

FUNCTIONALITY

At the initial valuation date, the **starting values of all three shares** (closing price of each share) are determined. During the observation period, the **current closing price** of each share is compared to its respective starting value at each annual valuation date. One of the following **two scenarios** will occur:

SCENARIO 1: All three shares quoted AT/ABOVE their respective starting value at the annual valuation date

Provided that the closing prices of Erste Group Bank AG, OMV AG AND voestalpine AG are at or above their respective starting value at the current annual valuation date, the investor obtains the interest rate of 4% (equals EUR 40 per EUR 1,000 nominal value). Investors have the opportunity to obtain the interest rate of 4% again in the following years of the term.

SCENARIO 2: ONE share/MULTIPLE shares quote BELOW their respective starting value at the annual valuation date

In case the closing price of one share or multiple shares quotes below the respective starting value at the current annual valuation date, the interest payment does not apply for the respective year. However, investors have the opportunity to obtain the interest rate in each of the following years too. This means investors still have the possibility to profit from positive performances of the shares.

At the end of the term the investment is 100% capital protected by Raiffeisen Centrobank, i.e. during the term price fluctuations may occur, but investors obtain at least 100% of the nominal value at the end of the term.

Product brochure as of May 13, 2016

OPPORTUNITIES

- **Yield opportunity in sideways moving markets:**
Even with sideways moving or slightly increasing prices of the three underlying shares investors can generate a solid yield.
- **100% capital protection at the end of the term:**
The Guarantee Certificate Austrian Stocks Bond is 100% capital protected at the end of the term (June 2024), i.e. the investor obtains at least the nominal value.
- **Secondary market:**
flexibility through permanent secondary market, no management fees

RISKS

- **No yield when shares perform negatively**
In case the performance of at least one of the three underlying shares is negative at the annual valuation date, the investor obtains no interest rate in the respective year of the term.
- **Price fluctuations during the term:**
During the term the price of the certificate may drop below 100%, the capital protection takes effect exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- **Issuer risk:**
Redemption is dependent on the solvency of Raiffeisen Centrobank AG (issuer risk). In case of insolvency of the issuer the investor may incur a total loss.

DISCLAIMER

In spite of careful research, the information contained in this marketing communication serves only for the information of our customers without commitment on our part. The information does neither constitute an investment advice nor a recommendation nor a solicitation to conclude any transaction. Equally, the information contained in this brochure cannot substitute investor or investment specific advice. The sole legal basis for all products described in this brochure is the base prospectus (including any possible changed or supplemented information) which has been approved by the Austrian Financial Market Authority, in connection with the Final Terms all of which have been deposited at the Oesterreichische Kontrollbank AG. These documents and further information, respectively, are provided on the website of Raiffeisen Centrobank AG at www.rcb.at/wertpapierprospekte and www.rcb.at.

Unless otherwise explicitly expressed in any of the documents cited above no measures were or are taken in any national legal system, which should permit a public offering of the products described herein. Raiffeisen Centrobank AG explicitly excludes any liability regarding this brochure, in particular in relation to the correctness, appropriateness and completeness of the information presented herein.

During the term the market price of the certificate may drop below 100% of the issue price due to price fluctuations. The capital guarantee of 100% nominal value exclusively applies to the maturity date. The market price of the certificate needs not develop simultaneously to the market price of the underlying during the term. During the term the market price of the certificate is subject to various influencing factors such as volatility, coupon rate, credit rating of the issuer and time to maturity date. Redemption or repayment of the certificate at maturity is dependent on the solvency of the issuer. Further information – see Prospectus.

The information presented does not constitute a binding tax advice. Taxation of investments is dependent on the personal situation of the investor and may be subject to change. As regards taxation and impact on the investor's individual tax situation, it is recommended to consult a tax advisor. This report is based on the knowledge the person preparing the document has obtained up to the creation date. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.
