The certificate 3% Europe/Austria Bonus&Safety 2 is based on two reknown stock indices. The European benchmark index EURO STOXX 50® and the Austrian benchmark index ATX® serve as underlyings for this certificate. This investment product is suited for investors who expect these two indices to perform stably in the upcoming five years and who deem price slumps of 51% or more unlikely to occur. The certificate combines fixed interest payments of 3% p.a. with partial protection for the invested capital. The initial distance to the barrier (safety buffer) is 51%. The certificate has a term of five years. Further details regarding opportunities and risks of this certificate are presented on the following page.

FUNCTIONALITY

At the initial valuation date, the closing price of the EURO STOXX 50® index and the closing price of the ATX® index are fixed as **starting values** and the respective **barriers** (49% of the respective starting value) are determined.

- The fixed interest rate of 3% is paid out annually, regardless of the performance of the two underlying indices (equivalent to 5x EUR 30 per nominal value during the term).
- Redemption of the nominal value at the end of the term depends on the performance of the two indices. The index prices are continuously compared to their respective barrier during the observation period. At the final valuation date one of the following scenarios will apply:

SCENARIO 1: both indices always quoted ABOVE the barrier

If the EURO STOXX 50° index **AND** the ATX $^{\circ}$ index always quoted above the barrier of 49% of their respective starting value during the observation period, the certificate is redeemed at 100%. This means, provided that none of the two indices ever declines by 51% or more compared to its starting value, investors obtain the nominal value of EUR 1,000 at the maturity date. This amount represents the maximum payout.

SCENARIO 2: barrier TOUCHED or UNDERCUT by at least one index

If the EURO STOXX 50® index **AND/OR** the ATX® index touched or undercut the barrier of 49% of the respective starting value during the observation period, redemption at the maturity date is effected according to the index which performs "worst" (percentage change from the starting value to the closing price at the final valuation date). Even if the barrier is touched or undercut, the maximum payout is limited to EUR 1,000 per nominal value and investors do not participate in price increases of the indices beyond their starting values.

OPPORTUNITIES

• Fixed interest rate:

The fixed annual interest rate (3% p.a.) is paid out regardless of the performance of the two underlying indices.

Safety buffer:

Attractive yield in sideways moving and moderately declining markets due to the partial protection against falling prices down to the barrier of 49% (safety buffer of 51%)

Flexibility:

Tradability on the secondary market, no management fees

RISKS

Barrier violation:

If the respective barrier is violated by at least one of the two underlyings, investors are entirely subject to market risk, without any protective mechanism.

Limited yield opportunity:

The yield is in any case limited to the fixed annual interest payments ($5 \times 3\%$ during the term). Investors do not participate in price increases of the underlyings beyond their starting values.

Issuer risk / Bail-in:

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed information is available at www.rcb.at/en/basag. Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The EURO STOXX 50® index, which is used under license, is the intellectual property (including registered trademarks) of STOXX Limited, Zurich, Switzerland ("STOXX"), Deutsche Börse Group or its licensors. The 3% Europe/Austria Bonus&Safety 2 certificate is neither sponsored nor promoted, distributed or in any other manner supported by STOXX, Deutsche Börse Group or their licensors, research partners or data providers and STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not give any warranty, and exclude any liability (whether in negligence or otherwise) with respect thereto generally or specifically in relation to any errors, omissions or interruptions in the EURO STOXX 50® index or its data. Further detailed information on this matter may also be found in the Base Prospectus at "Underlying Specific Disclaimer".

The ATX® index is protected by copyright law as trademark of Wiener Börse AG ("WBAG"). It has been developed, is calculated in real-time and published by WBAG. A non-exclusive authorization to use the index in conjunction with financial instruments by the issuer was granted upon the conclusion of a licence agreement with WBAG. The financial instruments based on this index have neither been issued by WBAG nor recommended by WBAG.
