DESCRIPTION

With the certificate 11.75% Austria Reverse Convertible Bond investors obtain an annual fixed interest rate of 11.75%. Whether the nominal value is returned at the end of the term or whether physical delivery of shares is effected depends on the performance of the underlying shares (Erste Group Bank AG, OMV AG and voestalpine AG. In case of physical delivery of shares at the end of term, a predefined number only of the share with the worst performance is delivered. In this case investors are entirely subject to market risk.

This advertisement serves as non-binding information. The author assumes no responsibility for the accuracy, timeliness and completeness of this advertisement. The provided information is not an offer and is neither a recommendation nor a financial analysis. It does not replace investor-oriented and investment-oriented advice for the purchase and sale of the financial instrument. The base prospectus (including possible amendments) and the respective Key Information Document (KID) of the financial instrument are available on the website of Raiffeisen Bank International AG ("RBI") at www.raiffeisenzertifikate.at/en/securitiesprospectus. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. You are about to purchase a product that is not simple and may be difficult to understand. We recommend that you read the prospectus before making an investment decision. The investor bears the credit risk of RBI when purchasing the financial instrument. The certificate is subject to specific rules that may already be disadventageous in case of a probable default of RBI (e.g. suspension of interest payments) - see www.raiffeisencertificates.com/en/basag. The price performance shown here is only an information about the historical price performance. Information on past performance is not a reliable indicator of future performance. The investment may lead to tax obligations that vary depending on the client's personal circumstances and future changes. Any limited tax liability in Austria concerning non-resident taxpayers does not imply tax exemption in the state of residence. Please note that due to legal requirements, the times stated here are based on the coordinated world time (UTC). The Central European Time (CET), which applies in Austria, Germany and other Central European countries, is calculated by adding one hour, the summer European Central Summer Time (CET) by adding two hours. RBI is registered in the business register FN

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

FUNCTIONALITY

At the **initial valuation date**, the **starting value** of the underlyings are determined and based on that the **barriers** are defined. During the **observation period** the underlying prices are compared with the respective barrier. At **the final valuation date** one of the following **scenarios** will apply:

1) Barrier not touched or undercut

If the underlying prices **always** quoted **above** their respective barrier, **100% of the nominal value** is paid out at the maturity date. This also represents the maximum amount.

2) Barrier touched or undercut at least once

- a) If at least one underlying price quoted at or below its respective barrier but the final values of all underlyings quote at or above their respective starting values, 100% of the nominal value will be paid out at the maturity date.
- b) If at least one underlying price quoted at or below its respective barrier and the final value of at least one underlying quotes below the respective starting value, physical delivery of shares is effected. Regardless of which underlying violated the barrier, only the underlying with the worst performance (percentage performance from the starting value to the final value) shall be delivered to the securities account.

The fixed interest rate is paid out in any case, regardless of the performance of the underlying shares.

PHYSICAL DELIVERY OF SHARES

A defined number of the share with the worst performance is booked into the investor's securities account. The number is calculated as follows:

Number of shares = nominal value / starting value

Usually this does not result in whole numbers. Due to the fact that shares are traded in whole numbers only, in the event of physical delivery the residual value is paid out in cash (= cash settlement) according to the market value:

Cash settlement = fraction of the shares x final value

Further details regarding opportunities and risks are listed on the next page.

¹ Early closing or extension of the subscription period is within the sole discretion of Raiffeisen Centrobank AG.

^{*} Raiffeisen Centrobank AG is a 100 % owned subsidiary of Raiffeisen Bank International AG – rating of RBI: www.rbinternational.com/ir/ratings

ERSTE GROUP BANK AG SHARE

Austrian banking group

59% INDICATIVE BARRIER

AT0000652011

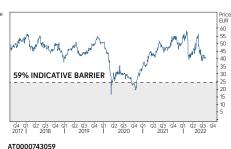

The universal bank with a focus on the private client sector concentrates primarily on the markets of Central and Eastern Europe.

- 45 - 40 - 35 - 30

OMV AG SHARE

Austrian oil and gas company

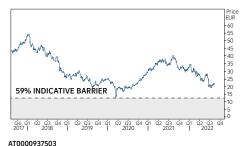

OMV AG is an integrated, international oil and gas company with activities in the up- and downstream sector.

VOESTALPINE AG SHARE

Austrian steel producer

Voestalpine is one of the world's leading technology group with a focus on product and system solutions made of steel and other metals.

As of August 8, 2022; Source: Reuters (ERST.VI, OMVV.V, VOES.VI) Please note that past performance is no reliable indicator for future results.

The certificate provides for physical delivery of shares. In the most unfavourable case, instead of a repayment of the nominal value the investor receives only the share with the worst performance delivered into the securities account.

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) - approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision) - in the key information document and among "Customer Information and Regulatory Issues" at www.rcb.at/en/customerinformation

OPPORTUNITIES

- Attractive fixed interest rate: The fixed annual interest rate (11.75% p.a.) is paid out regardless of the performance of the underlying shares.
- Safety buffer: Partial protection against price losses due to the initial safety buffer of 41% - barrier at 59% of the respective starting value
- Flexibility: Tradability on the secondary market, no management fees

RISKS

- Limited yield opportunity: The opportunity for yields is in any case limited to the fixed interest rate. Investors do not participate in price increases of the underlyings beyond their respective starting values.
- Barrier violation: If the respective barrier is touched or undercut, the investor is entirely subject to market risk, without any protective mechanism. Close to the barrier, there can be disproportionate price movements of the reverse convertible bond.
- **Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor, an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcbat) by entering the International Securities Identification Number (ISIN) of the respective financial instrument.

Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein.

Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date. Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on a dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the

to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Reverse Convertible Bond is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Reverse Convertible Bond. If the Reverse Convertible Bond is sold, there is the risk to incur a substantial loss or even a total loss of the invested copital ("market risk"). The Reverse Convertible is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Reverse Convertible Bond is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital (price performance). Dividends and similar rights associated with the underlying are taken into account when structuring the Reverse Convertible Bond and are not paid out.

Certificates issued by RCB are no financial products as defined in the Regulation (EU) 2019/2088
