POPIS

With the **USD Nasdaq-100® Twin Win 2** certificate, investors participate at 100% in the performance of the Nasdaq-100® index up to a maximum of +45% compared to the starting value. As long as the barrier of 60% of the starting value is not violated during the term, any negative price performance at the end of the term will also be converted 1:1 into profit. In the event of a barrier violation by the underlying index, the investor is entirely subject to market risk. This means, in this case a substantial loss of the capital invested is possible.
